Indicative Site Layout

Wheatley Homes Glasgow propose to develop the Vallay Street site to provide approximately 80 new build homes, comprising of 2-to-4-bedroom houses, and 2-bedroom cottage flats for both mid-market and affordable rent.

All blocks across the site are proposed as two-storey in keeping with the surrounding context.

Due to the existing topography on site - sloping towards the existing roads, the blocks are set back from the road line. As a result, parking is provided to the rear of all blocks, within communal parking courts.

Further existing constraints, such as an existing mineshaft (south-west corner) and mature trees (south) also dictate the proposed location of blocks.

Several pedestrian routes are proposed to provide connectivity west-to-east across the site, most notably from the currently under construction HUB to the existing Milton Park. This facilitates the use of existing amenities within the area.

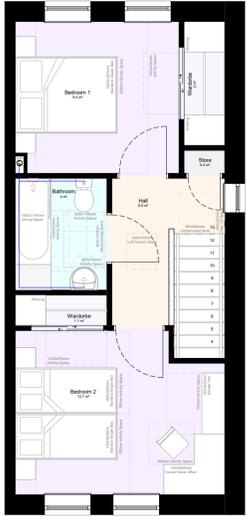

Key - Site Layout

- Site Boundary
- Private / Communal Gardens
- Amenity Space
- SUDs (Sustainable drainage system)
- Adoptable surfaces (roads & paths)
- Shared surfaces

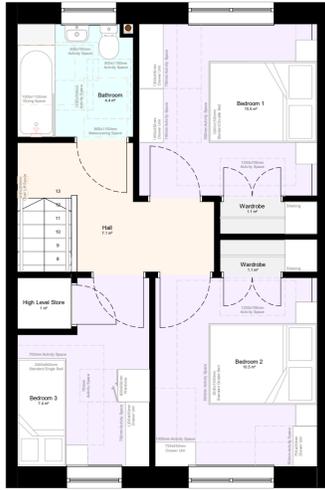

Key - House Types

- HT 1 - 2 Bedroom 4 Person House
- HT 2 - 3 Bedroom 5 Person House
- HT 3 - 3 Bedroom 6 Person House
- HT 4 - 4 Bedroom 7 Person House
- CF 1 - 2 Bedroom 3 or 4 Bedroom Cottage Flat
